

Bug House

Materials

- paper mache or wooden craft box
- hot glue gun
- acrylic paint
- natural items that bugs would like (i.e. bark, moss, pinecones, acorn caps, dried berries etc.)

Directions

- 1) Collect the materials you think bugs may like to live in
- 2) If you would like a roof on your bug house, cut the top of the box in half and glue together to make a roof*
- 3) If your box is in an area where it could get wet, paint the box with acrylic paint and let dry
- 4) Arrange the materials in the box however you would like and hot glue them in place
- 5) Set your box outside for a season and see how many inhabitants you have living in your Bug House!

*Adults should help young children with these steps
